

ACLUNAGA

ASOCIACIÓN CLÚSTER DEL NAVAL GALLEGO

ACLUNAGA

Galician Shipbuilding Sector Meeting Point

ACLUNAGA

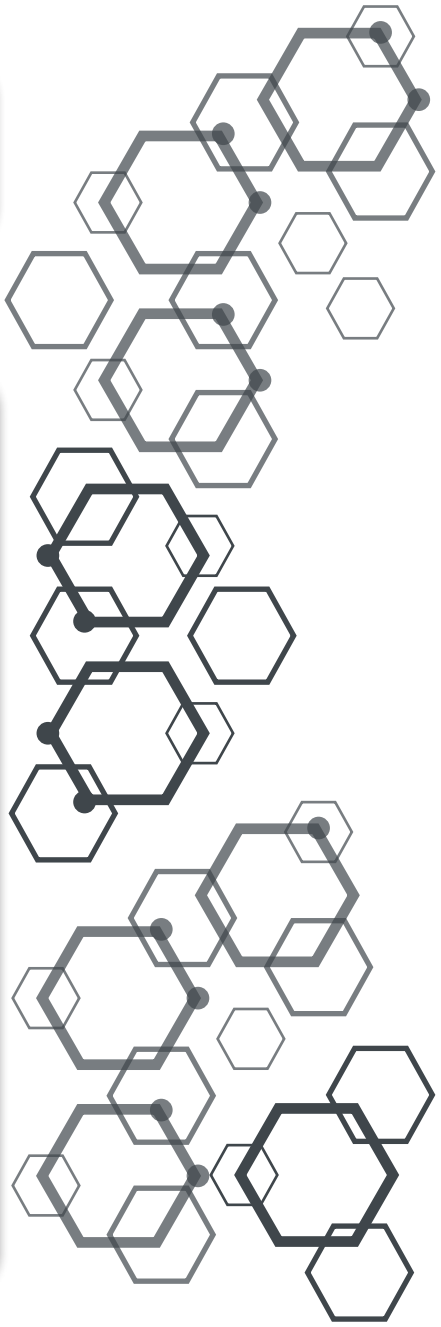

The only business association of the Galician Shipbuilding Sector

The Galician Shipbuilding Cluster (ACLUNAGA) emerged in 1999 as a boosting tool for this sector, as well as being the meeting point between the business sector and shipbuilding sector agents.

Between 2000 and 2006, at the beginning of the Cluster, ACLUNAGA has accomplished a wide range of different projects, regarding areas such as training, Information Technology and prevention of occupational hazards.

Since 2006 ACLUNAGA works in the design and implementation of a new action plan is order to strengthen the Cluster, focused in giving solutions to the main challenges of the Galician shipbuilding sector. That is to say, its goal is to tackle the need of qualified personnel, to organise the relationship model between shipyards and their suppliers, to achieve a strong commitment to innovation and technology improvements, enhancing the cooperation among each other and to converge on an agreement in the diagnosis of the sector as well as in the schedule to follow in the future

Moreover, the purpose of ACLUNAGA is to see a **cooperative relationship and business among the members of the Cluster.**

ACLUNAGA

UNIQUE IN THE SECTOR

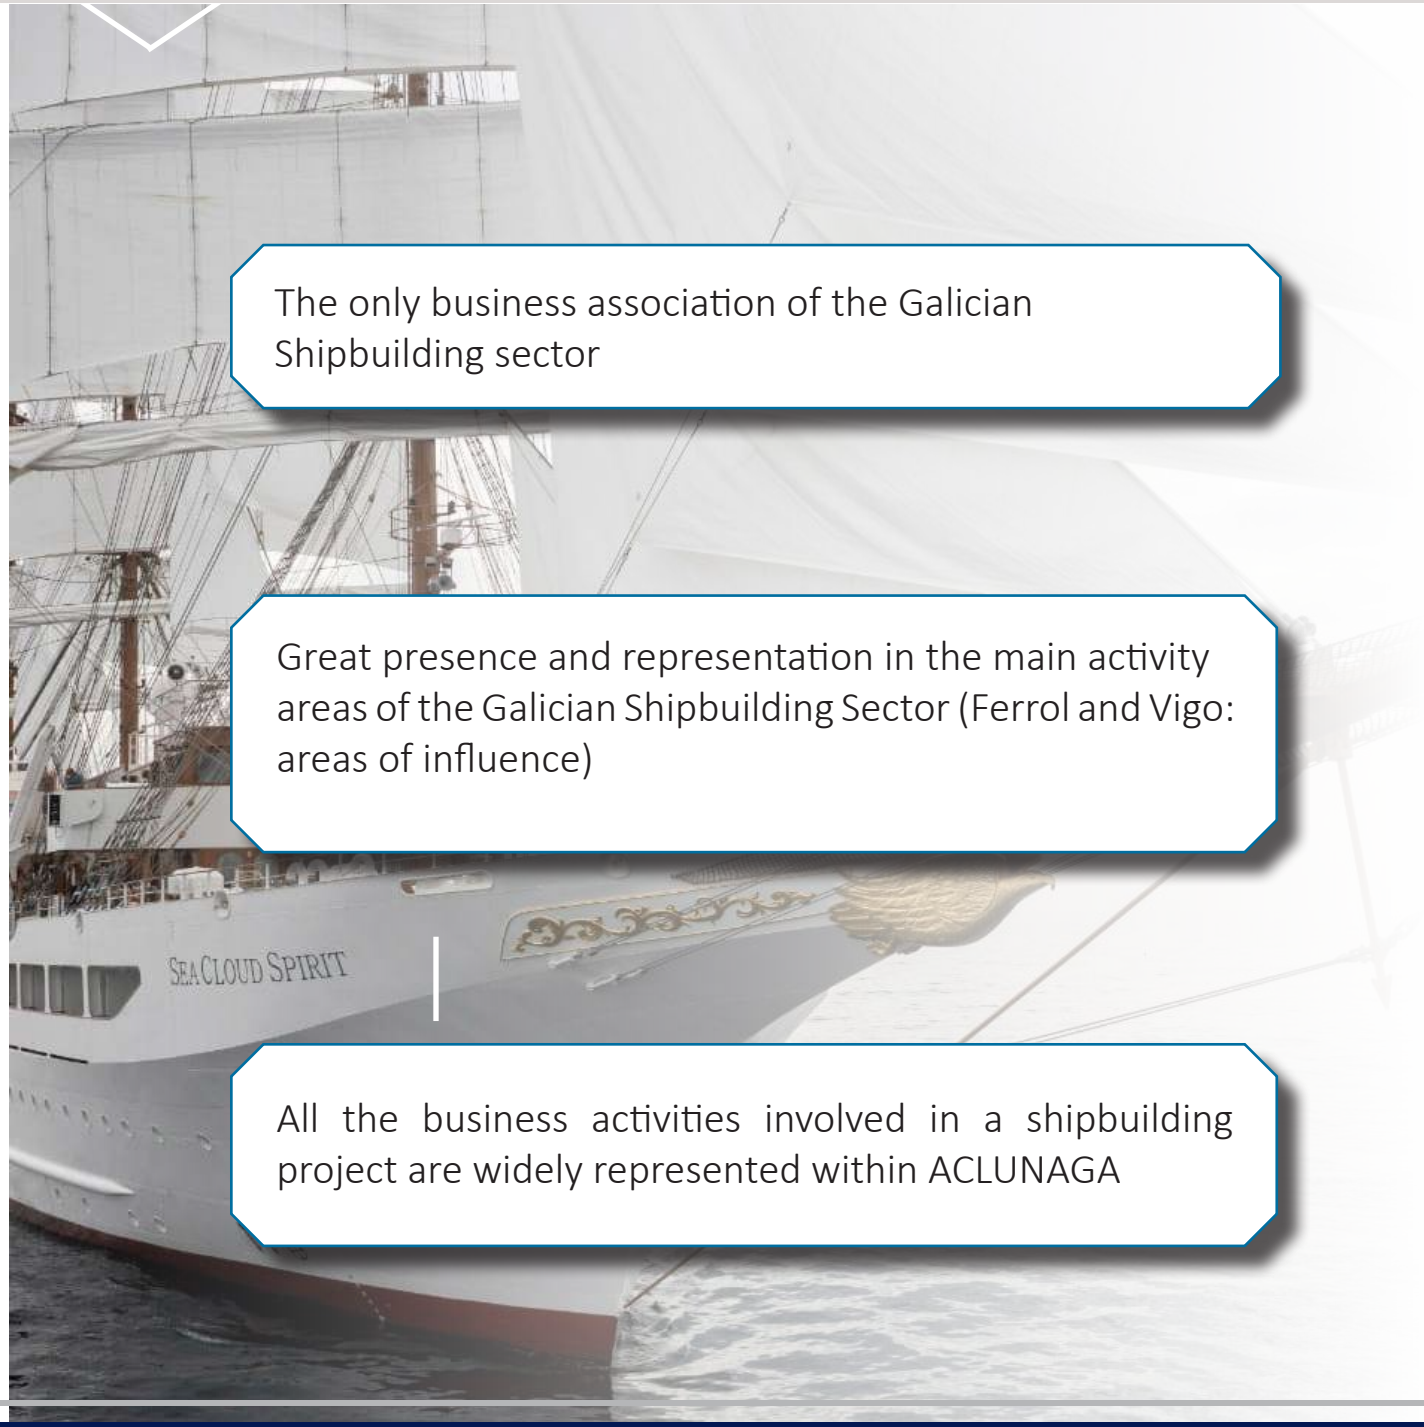

The only business association of the Galician Shipbuilding sector

REPRESENTATIVE

Great presence and representation in the main activity areas of the Galician Shipbuilding Sector (Ferrol and Vigo: areas of influence)

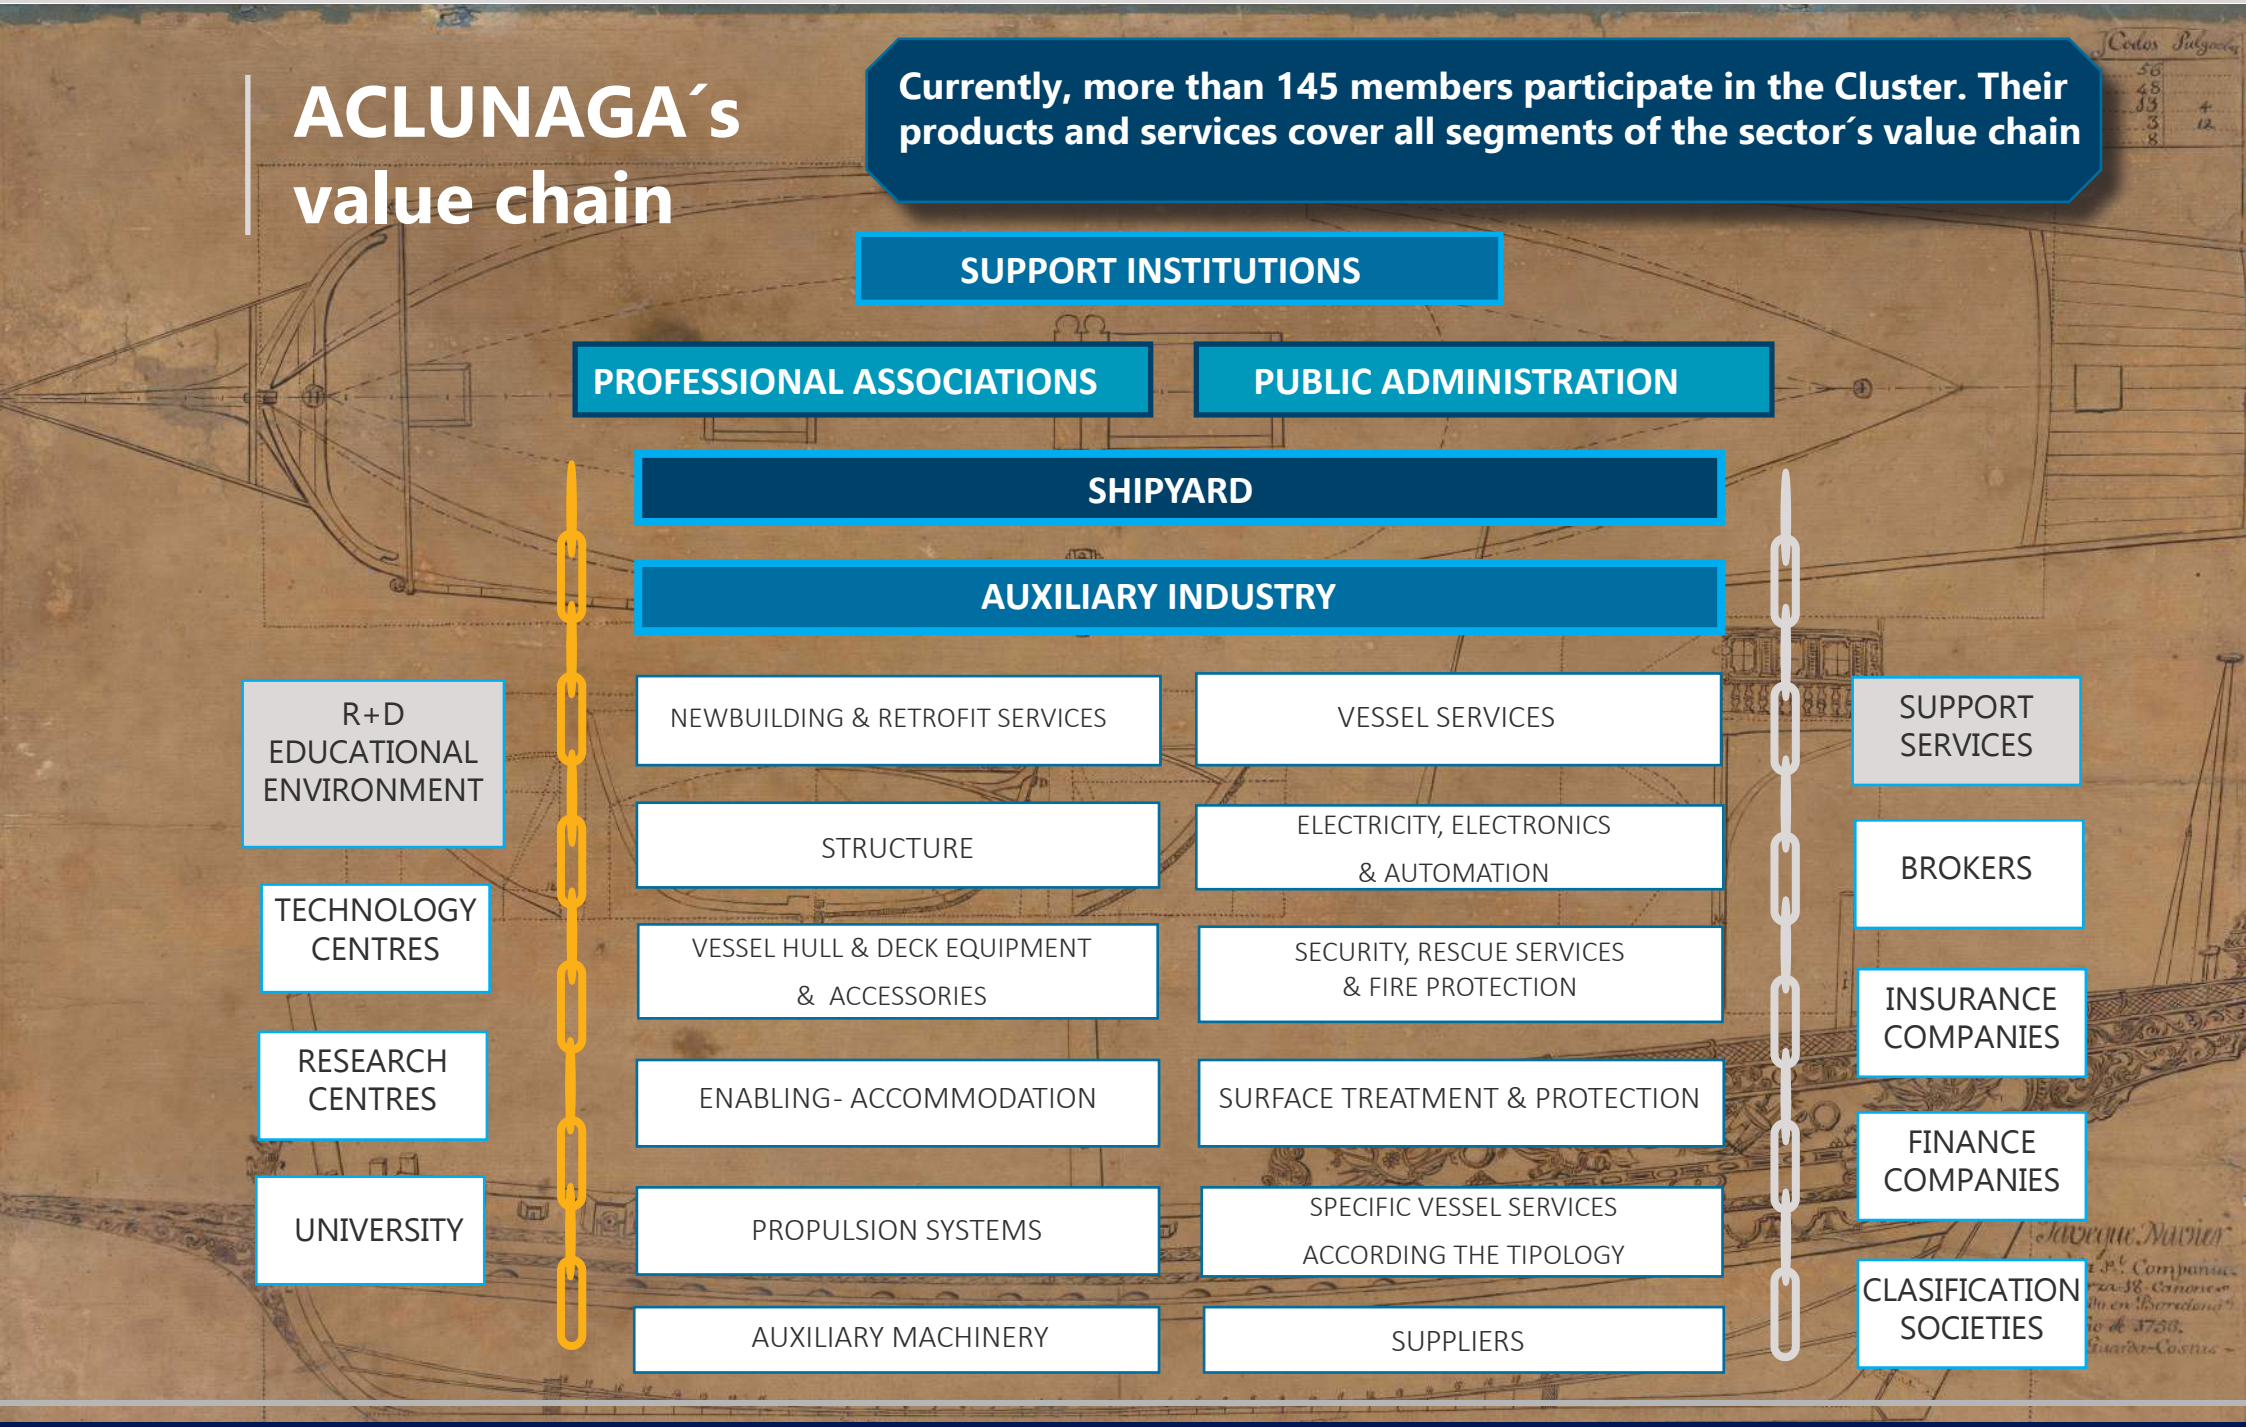

CLUSTER

All the business activities involved in a shipbuilding project are widely represented within ACLUNAGA

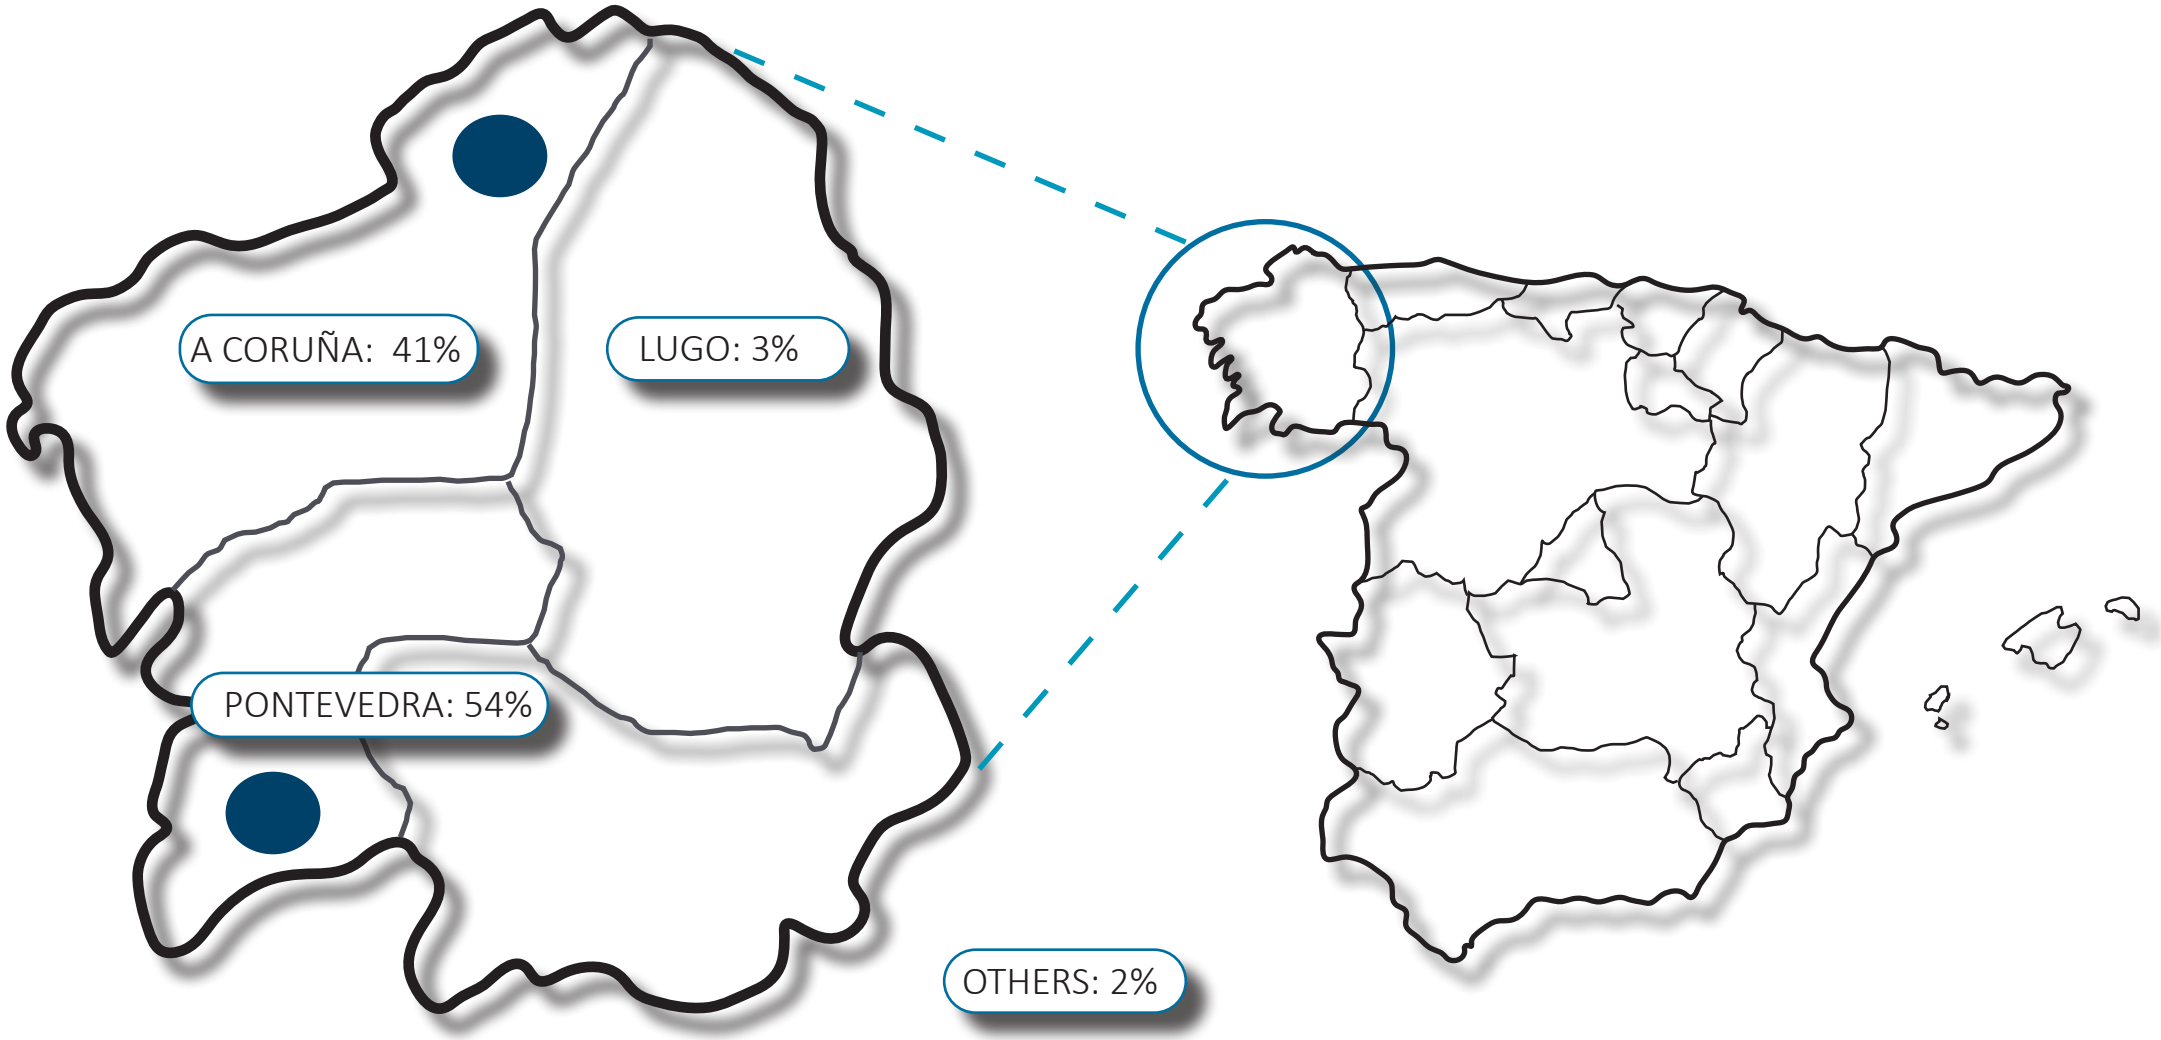

ACLUNAGA´s value chain

Currently, more than 145 members participate in the Cluster. Their products and services cover all segments of the sector´s value chain

ACLUNAGA in figures

The Cluster currently has mainly 2 work areas, Ferrol & Vigo, located in Pontevedra and A Coruña.

Goals of ACLUNAGA

Establishing a **cooperation system** between all the associates in order to unify criteria and the use of the same production processes

Increasing the level of production quality in our associates.

Homologation and product certification, at national, EU and international level, by obtaining ISO certification for our associates.

Cooperation and coordination with public administration in order to achieve an optimal business development, both within Galicia and abroad.

Promotion and joint study of our partners´ business activity, in order to reduce individual costs.

Encouraging the development of our partners´s business activity in all areas.

Dissemination business and professional activities of our partners.

Joining together the will & effort of our partners in order to increase the activity of the auxiliary industry.

Establishment of a **system which encompasses safety standards, risk prevention, as well as environmental** protection, in order to comply with the current regulations on the matter

Board of ACLUNAGA

Any associate can be chosen to be a member of the board, holding elections every four years

Manuel Vázquez
CHAIRMAN

Xocas Cardama
Deputy Chairman
